

# ENGINEERING BULLETIN

Ref Document No.	EB21001	Issue No.	2
Subject	Anderson 120G Grader Service Sheets and Brake Test Documents		
Release Date	8 <sup>th</sup> February 2021		

**Purpose** – Advise Anderson 120G grader owners and operators of current service sheets and brake testing documentation.

**N.B. This Issue No 2. reflects corrected version no. of brake test form**

**Applicability** – All in service Anderson 120G explosion-protected graders.

### Background

Changes from earlier versions of below documents include, but are not limited to:

**PPK BT – Anderson 120G Ver 3-0121** – PPK 120G Brake test form

- Removed reference to MDG 39.
- Included optional supplementary park brake test.
- Added various checks of vehicle systems.
- Included reference to Safe Work Procedure for brake testing.

**PPKDWG-956 Rev 1** – Recommended Braking System drawing

- Addition of test button for optional supplementary park brake.

**Anderson 120G service sheets version 5-0320.**

- Added checks and tests of low main air pressure shutdown valve. Ref. EB20002

### Recommendations

Owners/operators are advised to review the following documentation against site-specific test procedures, maintenance regimes and plant schematics:

- Brake Test Form **PPK BT – Anderson 120G version 3-0121**
- Safe Work Procedure **SWP Diesel 171 version 4-0121**
- Recommended Braking System Drawing **PPKDWG-956 Rev 1**
- Service sheets as per **Code [x] – Anderson 120G version 5-0320.**

Owners/operators are urged to contact PPK if further information is required.

**N.B. The applicability of information in the above documents must be evaluated against any modifications that have been made to the original machine frame, engine, brakes etc.**
